

What you should know about Nature for All ... and why

Nature for All is a multi-year initiative to restore Woodend Nature Sanctuary on Jones Mill Road in Chevy Chase, MD.

Why does *Nature for All* matter to you? Because our visitors will be your customers and employees! We're planning for increased visitorship to Woodend stemming from the Purple Line and development of the Connecticut Avenue and downtown Bethesda corridors.

We want to introduce you to what is happening. A restored Woodend Sanctuary will provide our community with:

- a very green and public place to connect to nature;
- a new wheelchair accessible trail;
- a Nature Play Space for children and families;
- upgrades to our meeting facilities; and the
- restoration of our forest, meadow, stream and pond habitats.

Your business can benefit greatly from our upgraded grounds and facilities, and we'd love your input on how to strengthen our plans. Please join us for an insider's look at the planned restoration on October 23rd.

We'll hike the sanctuary, so please dress for the weather and wear comfortable shoes. Binoculars are always welcome!

Scott Fosler

ANS Board President

and

Lisa Alexander

ANS Executive Director

invite you to a

Restoration Tour and Presentation

at

Woodend Nature Sanctuary

View projects to restore the natural habitat at Woodend.

*Learn about the **Nature For All** initiative.*

Hear about the Campaign's impact on the local community and entire Washington Region.

Tuesday, October 23, 2018

Noon to 1:00pm

Restoration Tour and Presentation followed by refreshments

Woodend Nature Sanctuary

8940 Jones Mill Road, Chevy Chase, MD 20815
