

## Diana Dibble

Diana Dibble is the CEO of Tripod Coaching & Consulting LLC, which opened in 2022 to provide business operations coaching and consulting services, and support businesses with Planning for the “What If”™. It was founded from her passion for business operations and desire to help companies build a strong operational foundation. She is also the President/Co-Founder of Design To Delivery Inc (D2DInc), an award-winning government contracting firm founded in 2001.

Diana opened her first business, dCUBED Incorporated, in 1996 and has been consulting for businesses in various capacities since then. She works with clients in a variety of industries and consults for businesses ranging from pre-startups to multi-million dollar/multi-national firms.

She regularly speaks on business and business operations topics, volunteers for local and national non-profits, and is an active member in several business associations. She has been recognized by industry for her business expertise, and she is a top 3 finalist for the 2022 NAWBO Woman Business Owner of the Year award.

Diana spent years planning to open Tripod, but she was busy running D2DInc. In 2021, Diana experienced a big “what if” and brain surgery was the catalyst to opening the business. She shares her story as a brain tumor survivor to show why a strong operational foundation is essential for businesses. She also uses it to bring awareness, and to fundraise for various programs and clinical trials.
